4. Barnhardt – Circle-D Farm, Late April/Early May, During her the class block only,  
(Approved)

### **Students in back upstairs C Hall before school**

Can we lock those doors? No because of Fire code says the doors must be opened.

Mr. Dellisanti wants to put cameras in the stairway.

If a teacher is available to swing by in the morning to send students away, please do so.

### **Announcements**

Problem – Announcements are not getting to the office in time in order to announce them after the pledge. Announcements are coming in through out the day, and students can't hear in the hallways during class changes.

Proposal – Mrs. Young can add a daily announcement to the website. Please have them to her by 10. They will put on the site by 10:30 for kids/parents to see.

We want to keep announcing student awards and achievements to the student body in the morning and all others will go on the school website.

Schoology will have a place for announcements next year, as well as an APP

### **SIT Review**

1. Praise wall – the lockers upstairs may be removed for a collaborative space which will house the wall, if it doesn't happen Mrs. Bryd will place them on the bulletin board outside the cafeteria
2. Health Initiative – Bree Stillings has agreed to take that over for next year
3. Positive Parent Contact – Are teachers completing this? How do we know without tracking?  
Suggestion – Can we just call our CATS students rather than all of our classes? Yes. This will begin next year. Remember even talking to a parent at a game can be considered a positive contact.
4. There are plans to work on reinstating remediation during CATS for exams and on plans to return student computers for the summer.

April 21 – Special Olympics

May 28 – Senior Project Presentation Night
