

SIT Team Meeting 11/03/14

Good News

1. Melanie Miller – Students worked well in class today using technology
2. Mrs. Harper – Had a successful day with technology
3. Golf, Cross Country, and Tennis had great seasons
4. Soccer playoffs tonight
5. Orange and Blue Crew has done very well this year

Field Trips

Reynolds field trip request - 5th block Musical Theatre class to CGES to perform, No cost to students, Approved

Marohn – Dec 19, 4th Block only, class to Casa Grande

Student Monitoring

Students in upstairs hallways before 7:15 - are we allowing this before teachers are available to monitor?

Teachers should ask them to move back to the atrium.

There is a problem with students on the back C stairwell. If you have time during the day please go by and send students back to class.

Please take a moment at the beginning of your planning to check hallways for students out of class. Send them to get a tardy note.

Technology PDP

innovate/Teach the Teacher; professional development in general

Can the innovate team be brought back?

The new administration was unaware of this program, but is open to the idea.

Can technology PDP be integrated into common planning? Ideally Mr. Gobble and Mrs. Luther would to go to PLCs to teach technology, but the timing has not worked out to make it available.

This will be discussed with Mr. Dellisanti when he returns from China. There are a lot of questions and ideas that can possibly be implemented.
